about us

We believe that no one should suffer or die from preventable diseases or lack opportunities because of where they were born. That's why we work every day to bring an end to extreme poverty.

"Sometimes these issues feel too big for me to address but I know that it's not. Results gives me the confidence, the tools and the training to let me know that I can do this and I can do it now."
- Alexia, Results volunteer

to end extreme
poverty

ending extreme poverty is possible

Since we began over 30 years ago, we have seen extreme poverty cut in half. Using the incredible power of conversation combined with education and action, we influence Canadian government decision makers to improve policies, create better programs and increase resources to combat poverty.

Our power lies in our people - especially our volunteers. They are passionate and committed individuals who aren't looking for recognition, but rather want to make a difference in the lives of other people.

our work

We provide best-in-class advocacy training paired with coaching for volunteers so that they can take on the kind of work that a lobbyist or public relations pro might - but with the authenticity, passion and credibility of everyday people driven by a mission, not by profit.

we educate

We equip our volunteers and decision makers with training, tools and support to learn which strategies, tactics and areas of focus are most effective to combat poverty.

we advocate

We take action by raising our voices to the media and to decision makers, and speak out to hold the Canadian government accountable to deliver on their promises and ensure that anti-poverty solutions translate into reality.

“Results focuses 100% on advocacy. Without any strings attached, it is a nonprofit group which is working for the benefit of the masses. Whether it’s TB, malaria, poverty, women’s empowerment, they are working on all these projects, taking action, so that more funding can be given to these projects all over the world.”
– Vinay, Results volunteer

you can take action!

We will educate you on the most effective solutions to end extreme poverty so you can raise your voice and take action!

“Once you see how your small, good work can impact other people’s lives, it’s very inspiring and you just feel very good.”
– Shatabdi, Results volunteer

When you volunteer with us, you will learn how to raise your voice and take action by:

Influencing politicians by calling, writing, emailing, or meeting your Member of Parliament (MP) or federal government Minister.

Publishing letters to the editor (LTEs) or op-eds in your local or national newspaper.

Using social media for impact by tweeting, posting, sharing and liking - and tagging your MP or Minister.

Donating or fundraising.

Once you take action, you will realize your potential to give people living in poverty the health, education and economic opportunity they need to thrive. **Change is possible.**

join us

We’re not looking for 100,000 people to volunteer with us. We’re looking for quality over quantity, heart over matter, and passion with compassion. Does that sound like you?

Our volunteers are empowered people from across Canada - students, professionals, retirees - who use their voices to make meaningful change. They volunteer their time to learn about the causes and consequences of extreme poverty and the solutions to address it.
